**Spring Pet-Safety Tips**

**Check for fleas**
- Keep pets on long baths to prevent infestation from fleas. Use pet shampoo for safety to ensure your pet is protected.

**Dog yard tips**
- Keep your dog on a leash when in public spaces to prevent accidental bites or escapes.

**Cat and other pets**
- Use flea and tick collars to prevent infestations.

**Toxic and non-toxic plants**
- Be aware of toxic plants around your pet's environment. Keep them away from your pet to prevent ingestion.

**Pest-tips**
- Use natural remedies like vinegar to repel pests.

**References**

**Microchip your pet**
- Microchipping will ensure you can reunite with your pet if lost.

**Clean anti-freeze**
- Antifreeze is a deadly poison. Just a taste could be hazardous to animals. Clean the mess as soon as possible.

**Visit the Vet**
- Time for a check-up! Have your pets checked annually and keep their vaccinations up to date.

**Keepe hazardous plants & supplies out of reach**
- Move plants & supplies out of your pet's reach like cleaning chemicals, medications, laundry, wires, garbage, and poisonous indoor plants like Easter Lily.

**If your pets are coming back with fleas each time they go outside**, think of keeping them inside or walking them on a leash.
